

IN THE WORKS

Annual Road Resurfacing Program

In the last four years, more than 140 lane miles of residential streets have been resurfaced through the city's popular repaving program. In this fiscal year, 28.8 lane miles have been completed. Parking lots in the Daytona Beach Golf Club and Daisy Stocking Park have also been resurfaced. Later this month, the parking lot in the Public Works facility on Bellevue Avenue will be repaved.

In addition to improving streets and parking lots, the program upgraded 30 ADA sidewalk ramps this fiscal year, with more expected to be completed by September. The total number of ramps finished since the program's beginning is 167.

Plans for fiscal year 2024-2025 include procuring a vendor to conduct an updated road condition survey and resurfacing about 32 lane miles of streets, depending on the program's budget.

Sunnyland Park Basketball Court

The basketball court at Sunnyland Park is closed to the public while it's being resurfaced. The \$10,000 project is expected to take about three weeks. Residents wanting to play basketball can use outdoor courts at several facilities.

Visit DaytonaBeach.gov/Parks for a complete list.

Dickerson Recreation Center Restrooms

The Dickerson Recreation Center's restroom renovations are complete. Upgrades include ADA features for the restrooms at the center's entrance, which have been transformed into single-occupant unisex stalls. Work on the restrooms in the Mickel Brown Building is nearly complete.

Electric Vehicle Chargers

A new EV charging station has been installed at the Florida Tennis Center, 1 Deuce Court. This location joins City Hall and the intersection of Beach Street and Magnolia Avenue as sites for Blink EV charging units. Once additional electrical panels are installed, Breakers Oceanfront Park and Cherry Cultural & Educational Center will be the next two locations where the charging units will be mounted.

Purple Heart Day Parking Spaces

With support from Mayor Derrick L. Henry and City Commissioners Stacy Cantu and Ken Strickland, two reserved parking spaces for Purple Heart recipients were unveiled in the Peabody Auditorium's parking lot. These spaces are in addition to the two veteran parking spaces dedicated earlier this year.

A ribbon-cutting ceremony with community leaders and local veteran organizations was held last Saturday.
